

AV Headphone

Note:

Please read "BlueSoleil Fundamental" document before you start to operate all applications introduced in this instruction.

The AV Headphone Profile enables use of a Bluetooth enabled headphone to listen to high-quality stereo music played on a computer.

Typical Usage

- Listen to stereo music using a Bluetooth enabled AV headphone.

Step 1: Connect to the AV headphone, following the instructions in [BlueSoleil Fundamental].

Note:

When you are connecting to the headphone, you may be requested to enter the headphone's default passkey. Enter the default passkey (it's usually as "0000"; 4 zeros) in the BlueSoleil computer's dialogue box, and then press "OK".

Step 2: Play music using media player software on your computer. Music will transmit wirelessly to the headphone.

If you are connecting to a headset or headphone, you may be requested to enter the default passkey of headset or headphone. Enter the default passkey (it's usually as "0000"; 4 zeros) in the BlueSoleil computer's dialogue box, and then press "OK".
