- ⑦ USB Power Cable (for BT450Tx)
- ⑧ Nonwoven Fabrics Pouch
- ⑨ User Manual (English)
- ⑩ Utility CD (e-Manual in English, French, German, Italian, Spanish, Russian, Traditional Chinese, Japanese)

Charging i-PHONO mini

Before you start to charge the i-PHONO mini headphone and stereo transmitter, please turn off both the devices in advance.

Step-1: Mount the AC Power Adapter to the interior wall outlet.

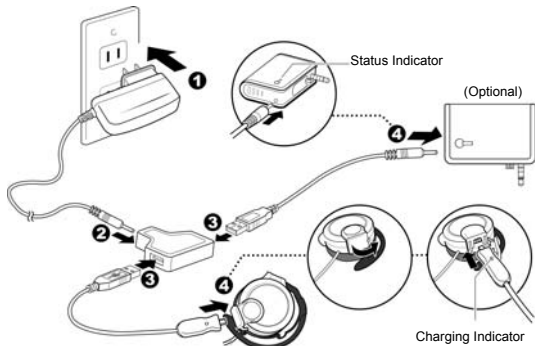

Step-2: Connect the AC Power Adapter with the DC-2-USB Adapter.

Step-3: Connect the USB Power Cable and USB Charging Cable to the DC-2-USB Adapter.

Step-4: Open the Rubber Cap of the left earpiece. Then, Plug the flat-squared terminal of the USB Charging Cable into the charge socket of headphone, and plug the pipe-shaped terminal of the USB Power Cable into the charge socket of stereo transmitter.

Please refer to the following chart to know the charging status:

Charging Indicator (USB Charging Cable) for Headphone	
Red Constant	Charging Mode
Green Constant	Fully Charged
Status Indicator of Stereo Transmitter	
Red Constant	Charging Mode
Blue Constant	Fully Charged
Low Battery Power Indication	
Headphone	When the headphone is on and the battery power becomes low, the headphone's Status Indicator flashes Red once with 2 beeps every 60 seconds. Please recharge it as described above.
Stereo Transmitter	When the stereo transmitter is on and the battery power becomes low, the stereo transmitter's Status Indicator flashes Red once every 60 seconds. Please recharge it as described above.

Notice:

- Please read carefully the “Battery and Charging Notice” in this manual to know the safety information for battery charging.

Reset Function for Headphone

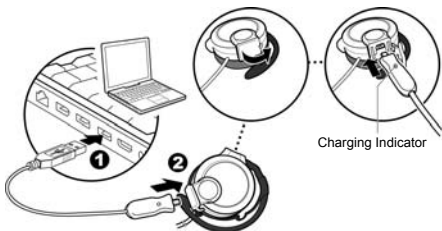

In some irregular situations such as void connection, error LED indication and failed power-off by unexpected reasons; you need to reset the i-PHONO mini headphone to the initial status. You can plug the USB Charging Cable without DC-2-USB Adapter into the headphone, and the headphone will be turned off. Then, unplug the USB Charging Cable, and the headphone will be rested.

If the **P/N** (product number) of your i-PHONO mini retail box is "BT450Rx-L" (Light Pack), you got one USB Charging Cable. You can use the USB Charging Cable to charge the i-PHONO mini headphone with the computer which provided a USB socket at least.

Charging the headphone singly via USB power:

Step-1: Please make sure the computer is on with power supply in advance, and then plug the USB Charging Cable into the USB socket of computer.

Step-2: Open the Rubber Cap of the left earpiece. Then, plug the flat-squared terminal of the USB Charging Cable into the charge socket of headphone.

Note:

Charging by the computer USB power is longer than charging by the designate AC Power Adapter. It is possible that the computer USB power output current is too weak to charge two electronic products simultaneously. Please purchase the designate switching AC Power Adapter (Input:100V~240V / Output: 5V, 500mA) and DC-2-USB Adapter from the selling point additionally if you want to charge two Bluetake products simultaneously and efficiently.
